

Insurance backup designed specifically for tradies

There's a lot to think about when running a tradie business, balancing demand and constantly being on the move. So we've created insurance cover that will give you one less thing to think about - specifically designed for you, whether you're a one man band, or run a business of up to five people.

Because there's so much going on, things don't always go right. You want insurance that's got you covered when tools get nicked, your van gets dinged, or you drop your 'can't do without it' mobile phone. There's also potential for really big challenges, like defective workmanship that could lead to a court case.

AMP Tradies Insurance is designed specifically to protect your type of business, so that you can have peace of mind when it comes to the risks encountered each day at work.

If you have a larger trades business we can still provide a competitive insurance solution for you, contact your Adviser to discuss your requirements or visit amp.co.nz to find an Adviser near you.
